We recommend that you document all work performed in order that you have a complete, chronological service record. Please refer to the MTU Service Manuals for more detailed information regarding service intervals and the specific work required.

Auch Ihre MTU Antriebsanlage benötigt regelmäßigen Service

Wir empfehlen Ihnen, alle ausgeführten Arbeiten zu dokumentieren, damit Sie über einen vollständigen, chronologischen Wartungsnachweis verfügen. Genauere Angaben zu Wartungsintervallen und den speziell erforderlichen Arbeiten finden Sie in den MTU-Wartungshandbüchern.

Votre installation propulsive de MTU elle-aussi a besoin de service regulier

Nous vous recommandons de documenter tous les travaux effectués afin d'avoir un justificatif d'entretien chronologique complet. Pour des précisions sur les intervalles d'entretien et les travaux nécessaires, voir les manuels d'entretien de MTU.

Anche il vostro impianto di propulsione MTU necessita di una manutenzione periodica

Consigliamo di documentare tutti gli interventi effettuati affinché si abbia a disposizione una completa prova di manutenzione cronologica. Indicazioni precise relative agli intervalli di manutenzione ed agli interventi speciali necessari sono riportate nei manuali di manutenzione MTU.

También su planta de propulsión MTU necesita servicio regular

Les recomendamos documentar todos los trabajos realizados para disponer de un justificante de mantenimiento cronológico completo. Para datos más exactos relativos a los intervalos de mantenimiento y los trabajos específicos necesarios, véase los manuales de mantenimiento de MTU.
